## Objectives

"Recent Computer Science student, internship with hands-on experience in MERN stack development and cybersecurity fundamentals. Seeking an entry-level position to leverage my full-stack development skills and security knowledge while contributing to building secure, scalable applications. Eager to apply practical experience with MongoDB, Express.js, React.js, and Node.js alongside security best practices in a dynamic development environment."

## Education

R.N.S.Rural.Polytechnic.Murdeswar

**DIPLOMA** | Computer-Science

- Developed a classic Snake game using React, implementing game logic, collision detection, and score tracking, resulting in an engaging and responsive user experience
- Engineered a fully functional e-commerce web application leveraging the MERN stack (MongoDB, Express.js, React.js, Node.js), demonstrating skills in front-end and back-end development and database management. This project includes features for product listing, cart management, and a secure checkout process

## Skills

- Programming Languages: Python (Basics), Java (Basics), JavaScript, HTML, CSS
- Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), Firebase
- Tools & Technologies: Git, GitHub, Kali Linux

## Soft Skills

- Communication (Written and Verbal)
- Problem-Solving
- Teamwork
- Time Management
- Leadership
- Adaptability
